INSTRUCTIONS FOR PATIENTS

**LOCAL ANESTHESIA**

If you are to have surgery under local anesthesia:  
Do NOT eat a heavy meal before surgery.

If you are apprehensive, you may want to bring someone who can drive you home. We can give you some medication to relax you and make the procedure easier for you.

**GENERAL ANESTHESIA**

If you are to have surgery under general anesthesia (be put to sleep):

Have absolutely NOTHING to eat or drink 8 hours prior to surgery.

Bring someone who will stay with you during your entire office visit including recovery. This person will also need to drive you home after your surgery, and remain with you.

You must NOT drive or operate hazardous machinery for 24 hours after surgery.

Please wear clothing that is loose, comfortable and short sleeved. Wear nothing tight around the neck.

REMOVE: nail polish, earrings, necklaces, bracelets, contact lenses, and all dental appliances prior to your appointment.

If a patient is under the age of 18, a parent or legal guardian should be present to sign a surgical consent form.

SPECIAL CONDITIONS

If you have diabetes, high blood pressure, heart trouble, bleeding problems, or require pre-medication due to a pre-existing heart condition or prior surgeries – please make us aware when scheduling your appointments.

\* Please notify the office at least 24 hours in advance if you need to reschedule or cancel your appointment.
